These fabrics are unparalleled. Soft to the touch, smooth and they fit like a second skin. Those bright and light fabrics evoke the freshness and purity of the morning, the vivid and saturated ones ooze the maturity of a long afternoon, while the thick and fleshy fabrics bestow us with warmth and protection in the evenings, when half-light and silence prevail. There's nothing like a fabric to create a character of an interior.

The wealth of colours, patterns and textures is truly remarkable and it opens up unique opportunities. Modern upholstery fabrics promise beauty and comfort – and the advanced technologies with the use of synthetic microfibers make it possible to achieve greater durability and ease of maintenance. Some of the fabrics are coated with Teflon, which significantly increases their resistance to water absorption and dirt.

Quality guaranteed

We offer a wide range of upholstery fabrics, which have been selected by Kler from a very wide gamut of leading suppliers.

In terms of cleaning ease and resistance to dirt, these fabrics meet all the requirements of European standards, as confirmed during laboratory tests conducted by the manufacturers.

All this is done with one concern in mind: so that the furniture that end up in your home, guarantee the highest quality – a quality without any compromise.

Declare

Home Perfume

velvet

A fragrance composition for the interiors.

A fragrance mix of oriental powders with a complex and subtle sweetness, which passes into a fresh and passionate note of cedar wood.

A discretely composed aroma, lingering in the interior with its delicate muslin mist.

The scent of sensual elegance.

Declare

Home Perfume

satin

A fragrance composition for the interiors.

An exquisite blend of intense floral scents of iris and violet, sensual musk, oriental patchouli and subtle powder notes.

This luminous composition emanates incandescent green aromas - just like early-morning aromatic dew.

The scent of sensual elegance.
